Classifying Organisms

Choose a habitat from the list below, or think of your own. Research the names of 10 to 20 animals that live in this habitat.

Habitats:

- **Amazon rainforest**
- **Great Barrier Reef**
- **Patagonia**
- **Galapagos Islands**
- **British Woodlands**
- **Your own choice:_____**

Classify the animals you've found into the correct groups.

Remember the groups are vertebrates (mammals, birds, amphibians, reptiles, fish) and invertebrates (insects, annelids, arachnids, molluscs).

Design a poster or 3D display to show your understanding of the habitat you have chosen and the classification of the animals that live there.

Due: Monday 12 November 2018
